

## EPISCOPAL TERMS RESEARCH SUMMARY 1964-2008

by Robert W. Higginbotham, Jr.

This research project focused on the tenure of those elected to the United Methodist Episcopacy since 1964 (although in the case of United States Bishops consideration was given to those elected prior to 1964 and still serving in an active relationship in 1964 and beyond).

Two Hundred thirty-five (235) persons have been elected to the Episcopacy between 1964 and 2008; an additional 40 United States Bishops elected prior to 1964 were still in an active relationship in 1964 and beyond. Thus, the number of Bishops considered in this study is 275.

While the *Book of Discipline* provides a single source for the election dates of all Bishops, I have found no similar source for Episcopal assignments, length of tenure, date of death, etc... The primary sources of information for this study include: *General Minutes* (1967-2007); UMC.org (Bishops Gallery); and wide variety of other sources identified through a number of internet search engines.

While I am fairly confident of the documentation of data for the United States Bishops, I am less so for the Central Conference Bishops (especially the Philippines) and the Autonomous Bishops elected since 1964. In fact, beyond information noting their election, I can find no resources to indicate any tenure (perhaps India) for Bishops Mamidi Elia Peter (1972) and Shantu Kumar A. Parmar (1979).

An initial review suggests that "term limits" appear to occur naturally. 93.8% of all United States Bishops elected and/or serving since 1964 have/are served/serving five quadrennium or less. 81.9% have/are served/serving four quadrennium or less.

Given the nature of the Central Conferences, a reasoned assumption concerning the tenure of Central Conference Bishops is that length of tenure would be longer. The data, however, does not support that assumption. 87.3% of all Central Conference Bishops elected since 1964 have/are served/serving five quadrennium or less. 78.2% have/are served/serving four quadrennium or less.

When totaled, and considering the pool of 275 Bishops, 89.1% of all Bishops elected and/or serving since 1964 have/are served/serving five quadrennium or less. 78.2% have/are served/serving four quadrennium or less.

Only 4 Bishops, all serving in the Central Conferences (Onema [33 years], Katembo [32 years], de Carvalho [28 years], and Ndcoricimpa [25 years]), have served for more than six quadrennium. Of that group Bishop Katembo is still in an active relationship.

Of the 13 United States Bishops who have served six quadrennium (24 years), 10 were elected prior to 1964. The last United States Bishop to serve six quadrennium was Bishop Yeakel, elected in 1972.
